

Speed. Strength. Flexibility.

**SARGENT**® 10 Line Scores a Perfect 10.

### Exceeding Standards— Time After Time

SARGENT's new 10 Line design surpasses all competitive products in strength and durability. The unique lock design exceeds Grade 1 requirements. At over 4,000,000 cycles, the 10 Line beats the closest competitor by 30%. As for abusive force, this lock endures more than two times the standard without allowing entry!

If you're looking for flexibility, the 10 Line offers twenty-two different functions and six different lever designs, including Coastal Series decorative designs. The through bolt positions are adaptable to fit almost any door preparation. Best of all, the lock can be installed in one minute or less, making installation as easy as **1-2-3!** >

### Flexibility to Meet All Your Needs

The 10 Line design offers twenty-two different functions, more than any other Grade 1 Cylindrical lock on the market. With such vast functionality, the 10 line offers an option for every application. A Freewheeling Trim feature is available with all keying options—to meet the most rigorous demands!

Functionality isn't our only specialty. We also offer a variety of finishes—ten in total, including the new US 15, satin nickel finish. The 10 Line has six different lever designs, including two new decorative levers. No other lock company offers such a selection on Grade 1 cylindrical locks. The through bolt positions are adaptable to fit almost any door preparation.

### Installation As Easy As 1-2-3

The new 10 Line design can be installed in one minute or less with fewer parts and assembly steps. The packaging includes a three step installation diagram that is clear and simple to follow, making installation as easy as 1-2-3!

### Looks As Good As It Feels

With tighter tolerances on the levers and rose assemblies, the 10 Line quickly sets itself apart from other brands. The lever's one-piece cast construction provides for a solid, stable grip. At the same time, the new slim rose design makes this lock aesthetically pleasing.

### We've Got You Covered

We offer a seven year warranty—the most extensive in the industry—and there's no service required to maintain it.
